The
New Ecologist
Journal of the Post Industrial Age

INDEX

Vol. 8 (New Series) 1978

INDEX OF AUTHORS

Agarwal, Anil: Vietnam's Other War. 2: 61-62
Allaby, Michael: Fairies at the Bottom of the Garden. 1: 24-25

Barnes, Peter: The Corporate Invasion. 6: 197-199
Birley, Rupert: Red for Danger. 3: 98-99
Bodger, John: Drowning the Future. 1: 5
Bower, Joanne and Etté, Anthony: Reverence and Responsibility. 3: 82-83
Bower, Joanne: Poisoned Meat. 5: 155-156
Bunyard, Peter: Sewage Treatment in a Swedish Sculpture Garden. 1: 22-23
From the Sublime to the Ridiculous. 2: 39
The Coal Equivalent Mentality. 2: 45-46
Attitudes to Civil Disobedience. 4: 134-136
Radiation Risks — How Low Can One Get? 5: 161-165
Bush, Malcolm and others: Big Brother in a Box. 5: 158-160

Carline, Paul: Freedom or Ease? 6: 203-204
Chowka, Peter Barry: The National Cancer Institute and the Fifty-year Cover-up. 6: 188-191

Dewar, Tom and others: Big Brother in a Box. 5: 158-160

Elkington, John: Red Herrings in the Inner City. 3: 84-85
Etté, Anthony and Bower, Joanne: Reverence and Responsibility. 3: 82-83

Fadaka, Jimoh Omo: Witch Doctors get the Green Light. 4: 136-137
Fagan, Kathy and others: Big Brother in a Box. 5: 158-160
Franks, Mike: Teeming with Life. 3: 88-90
Freeman, Peter: Ecological Feasibility. 3: 100-101

Gelbard, Linda and others: Big Brother in a Box. 5: 158-160
Goldsmith, Edward: What makes Kenny run? 3: 77-81
The Hammer-bashing Society (Editorial). 4: 110
Mellanby versus Theory and Fact. 5: 147-154
Goldsmith, Edward and Hildyard, Nicholas: La Hague: chaos reigns supreme. 6: 205-207
Gordon, Andrew and others: Big Brother in a Box. 5: 158-160
Greenstock, David: Sweet Nonsense. 2: 39-40
Food from the Locust Tree. 2: 55-56

Hall, Ross Hume: Health Hazards from Processed Foods. 1: 27-29
Nutrition by Numbers. 3: 91-94
Harding, James: Superior Pollution. 2: 47-50
Hildyard, Nicholas: Under the Guillotine (Editorial). 1: 2
Small Trades or Small Industries? 1: 7-9
The Windscale Report (Editorial). 2: 38
Japan's Civil War (Ecopolitics). 4: 131-132
There's More to Food than Eating. 5: 166-168
Chips on our Shoulders (Editorial). 6: 182-183
Hildyard, Nicholas and Goldsmith, Edward: La Hague: chaos reigns supreme. 6: 205-207
Hines, Colin: The Chips are Down. 6: 184-187
James, Katherine: New Zealand looks at her Values (Ecopolitics). 5: 169-171

Kelly, Petra: Uranium and the Unions (Ecopolitics). 3: 96-97
King, Ralph: Why Public Inquiries have False Teeth. 2: 51-54
Kvaloy, Sigmund: Self-sufficiency is not enough (Editorial). 5: 146

Linn, Wayne and Netboy, Anthony: Malawi — A Nation of Conservationists. 2: 64-65
Lumley-Smith, Ruth: The Road to Utopia. 1: 13-16
Old Age is not a Problem (Editorial). 3: 74
Minamata's Twelve Lost Years. 5: 172-173
Heartache in Paraguay. 6: 208

MacKenzie, Raewyn. new Zealand: Nuclear Decision Deferred. (Ecopolitics). 1: 31
MacKillop, Andrew: A Tsnumai of Wave Power. 2: 42-44
Fissioning Support for Candu (Ecopolitics). 2: 59-60
The SSRC looks at Alternative Technology. 3: 102-103
McCareins, Anna and others: Big Brother in a Box. 5: 158-160
McKnight, John: The Politics of Medicine. 4: 112-120
McKnight, John and others: Big Brother in a Box. 5: 158-160
May, Elizabeth: Canada's Moth War. 4: 115-120
Mayer, Lothar: Friendly Fascism (Ecopolitics). 2: 59
The Mafia and the Maverick (Ecopolitics). 3: 95-96
Mokrane, Arezki: Monopoly Breakers (Ecopolitics). 4: 133
Morgan, Elaine: The Urban Octopus. 3: 86-87

Netboy, Anthony and Linn, Wayne: Malawi: A Nation of Conservationists. 2: 64-65
Ninan, T.N.: The Livable Slums of Calcutta. 3: 99-100

Ranganathan, Shankar: A Plan for Rural India. 1: 10-12
Roche, Laurence: Forestry and the Community. 4: 121-124
Rushworth, Keith: A Wet Nothing (Ecopolitics). 6: 204

Salzman, Lorna: Wasting Away. 6: 192-196
Scott, James: The Subsistence Ethic. 3: 75-76
Siebker, Manfred: Luxembourg's New Colonialists (Ecopolitics). 2: 58
Starkey, Gregory: Report from Spain (Ecopolitics). 1: 31
Sweet, Colin: The Hidden Costs of Nuclear Energy. 1: 17-19

Tolstoy, Ivan: The Age of Uncertainty. 4: 125-127
Tyme, John: Emasculating the Road Lobby. 4: 128-130

Van Dam, Andre: Waste Management Buys Time. 1: 20-21
Van Dieren, Wouter: Risky Analysis. 2: 63

Willson, Richard: Atlanta Conference Report. 1: 3

SUBJECT INDEX

Accidents — improperly investigated. 2: 51-54
cover up of nuclear. 2: 51-54
public attitude to. 2: 63
bad record at La Hague. 6: 205-207
Additives — see also Food
dangers of. 1: 28
need for more research into. 1: 28
Africa — see Malawi
Agriculture — as greatest employer in India. 1: 10
declining returns from chemicals. 3: 75-76
in peasant societies. 3: 77
deterioration of arable lands from pesticide and herbicide use. 3: 77
the need for good husbandry. 3: 82-83
and forestry policy. 4: 121-124
hormone implants in livestock damage health. 5: 155-156
new controls needed in livestock management. 5: 155-156
destruction of fertile land in New Zealand. 5: 169
invasion of giant corporations in US. 6: 197-199
need for tax reform. 6: 197-199
Airports — Narita's anti-airport demonstrations (Ecopolitics). 4: 131-132
Alternative Technology — alternative strategies (Editorial). 1: 2
energy from waste. 1: 20-21
sewage treatment in Sweden. 1: 22-23
limited value of wave power. 2: 42-44
and solar power. 2: 45-46
alternative power cannot run industry. 2: 45-46
looked at by SSRC (Report). 3: 102-103
America — see USA, Paraguay.
Amerindians — death camps in Paraguay. 6: 208
genocide of forest Indians. 6: 208
Asbestos — pollution of Lake Superior by. 2: 47-50
hazards to health. 2: 47-50
need for control and legislation. 2: 47-50
Australia — Trade Unions and others oppose Uranium mining and nuclear industry (Ecopolitics). 3: 96-97
Forest Commission not good conservationists. 5: 152-153
Austria — rejects nuclear power (Ecopolitics). 6: 204

Beavers — should not be reintroduced to the UK. 1: 27
Breast Milk — chemicals and toxins cause anxiety. 2: 40-41
Bureaucracy — in medicine. 1: 3
reduces people to clients. 5: 158-160
fosters the idea of dependence. 5: 158-160

Calcutta — slums improved not removed. 3: 99-100
Canada — pollution of Lake Superior. 2: 47-50
attitudes to nuclear energy (Ecopolitics). 2: 59
forest spraying in New Brunswick and Cape Breton Island. 4: 115-118
mineral pollution of Lakes Erie and Ontario. 6: 193
Cancer — caused by asbestos. 2: 48-49
in chemical plant workers (Gleanings). 4: 138
from hormone implants. 5: 155-156
radiation risks assessed. 5: 161-165
U.S. National Cancer Institute. 6: 188-191
linked with diet. 6: 188-191
poor record of research programmes. 6: 188-191
better life without treatment. 6: 188-191
caused by external factors. 6: 188-191
from uranium dust. 6: 192-196
Caspian and Aral Sea — geology altered by human interference. 3: 98-99
Chemicals — see also Pollution
in food. 1: 28-29
effect on breast milk. 2: 40-41
Flixborough disaster. 2: 51
harmful effects difficult to assess. 3: 78
in livestock production. 5: 155-156
carcinogenic waste at Niagara (Gleanings). 6: 209
clioquinol drugs in Japan (Gleanings). 6: 209
brain damage from (Gleanings). 6: 209
Childcare — a profitable business in USA (Gleanings). 1: 32
Civil Disobedience — Ecologists call for non-violent action. 4: 134-136
attitudes to. 4: 134-136
FOE against. 4: 134-136
in US against nuclear power stations. 6: 201
See also special publication *Reprocessing the Truth*
Civilian Conservation Corps — in USA as a model for India. 1: 10-12
Clerkenwell Workshops — 400 jobs and 70 trades under one roof. 1: 9
a close knit society. 3: 89-90
Climate — mankind's influence on. 4: 125-127
change cannot be predicted. 4: 125-127
Comfrey — warning of possible dangers. 5: 160
Community Life — historical concept. 1: 13
in USA and Israel. 1: 13-15
Hutterites and Doukhobars. 1: 14
reflections on a failure. 1: 16
CBI — and attitude to small industries. 1: 7
Conservation — USA type civil conservation corps proposed for India. 1: 10-12
of energy through waste management. 1: 20
in Malawi. 2: 64
Covent Garden — decay follows removal of market. 3: 88-90
unique place in the City. 3: 88-90
Cover-Ups — of radiation studies. 5: 164
of Minamata disease. 5: 172
in cancer research. 6: 188-191
Craftsmanship — small trades and industries. 1: 7-9
Crocodiles — in danger of extermination. 1: 25
Culture — taboos as cultural control. 5: 166-168
importance of medicine-men. 4: 136-137
of forest Indians, destroyed in Paraguay. 6: 208

Dams — cause disruption in Lake District. 1:5 5
Democracy — commented on by Aldous Huxley. 1: 16
threatened in politics (Ecopolitics). 6: 203-204
Demonstrations — against Fenitrothion. 4: 115-120
against Windscale. 4: 134-136
at Narita airport (Ecopolitics). 4: 131-132
and non-violent civil disobedience. 4: 134-136
SCRAM (Ecopolitics). 6: 202-203
Desertification — defined (Gleanings). 2: 67
Devolution — and regional autonomy. 1: 3
Discipline — necessary in communal living. 1: 13-16
regarded as a threat in modern societies. 1: 16
Disease — see also Cancer: Health: Medicine.
Reye's syndrome linked to spray programmes in Canada. 4: 115-120
malaria mosquito resistant to DDT. 5: 147-154
from radiation. 5: 161-165
caused by pollution in Japan. 5: 172-173

Drought — in India caused by deforestation. 1: 9-12
disaster in Haiti (Gleanings). 1: 32

Ecology — see also Ecopolitics
attitudes to ecological movement in Europe. 2: 66
movement in the inner city. 3: 84-90
ecological feasibility concept. 3: 100-101
ecological principles cannot be altered by scientists. 5: 147-154
discussed at Liberal Party conference (Ecopolitics). 6: 204
Economics — job creation costs compared. 1: 7-9
of nuclear power. 1: 17-19
in peasant societies. 3: 75-76
consequence of breakdown (Editorial). 5: 146
Ecopolitics — see under this heading in each issue
French ecologists split. 1: 30
Europe ecology. 1: 30
in Spain. 1: 31
Values Party in New Zealand. 1: 31. 5: 169
Ecoropa. 2:58
political ecology needed to combat political cover up. 2: 47-50
attitudes to eco movement in Europe. 2: 66
in Germany. 3: 95-96. 4: 133
in Belgium. 4: 133
Ecology Party in Britain. 4: 133-134
disillusion in France. 5: 171
in Switzerland 6: 203
and the Liberal Party. 6: 204
Austrian triumph. 6: 204
Ecoropa — see also Ecopolitics
reaches its first birthday (Ecopolitics). 2: 58
founded by Édouard Kressman. 2: 58
Electricity — see also Nuclear Power
from waves. 1: 42-44
from solar power stations. 1: 45-46
attitude of CEGB to alternative technology. 2: 46
Environment — environmental impact studies as P.R. exercise. 1: 5
EPA and pesticide regulations (Gleanings). 1: 32
environmental policies in USSR. 3: 98-99
Erosion — cause of floods in India. 1: 10-12
of topsoil in the USA. 3: 77-78

Famine — avoided in peasant societies. 3: 75
Fertilizers — see Inorganic fertilizers
Flixborough — failure of public inquiry to establish true cause of disaster. 2: 51-54
Food — health hazards of additives. 1: 27-28
evils of white sugar. 2: 39-40
breast feeding a dilemma. 2: 40-41
from the carob bean. 2: 55-56
shortages expected in peasant societies. 3: 75
and nourishment. 3: 91-94
increasingly prepared away from home. 3: 91-94
and RDAs. 3: 92
poisoned meat. 5: 155-156
taboos importance of. 5: 166-168
social and cultural aspects of. 5: 166
as a source of ritual power. 5: 166
wolesome diet of primitive peoples. 5: 166
world resources (Book Review). 6: 105-106
poverty of white bread (Book Review). 5: 174
poor diet as cause of cancer. 6: 188-191
sea foods poisoned by nuclear waste. 6: 205-207
Forests — plantations for fuel wood in Malawi. 2: 64
degradation in USSR. 3: 98-99
spruce budworm infestation. 4: 115-120
spraying with fenitrothion. 4: 115-120
importance to the community. 4: 121-124
poor state of in UK. 4: 121-124
economic incentives needed. 4: 121-124
and the urban community. 4: 121-124
podzolisation induced by planting of conifers. 5: 152-153
loss in New Zealand (Ecopolitics). 5: 169
France — Government hostility to environmental lobby (Ecopolitics). 5: 171
La Hague nuclear power station. 6: 205-207
FoE — against civil disobedience. 4: 135

Germany — anti-nuclear demonstrators harassed (Ecopolitics). 2: 59
success of Green List Party (Ecopolitics). 4: 133
Gorillas — slaughter in Virunga National Park. 2: 65
Mountain G. Fund. 2: 65

Health — see also Cancer, Disease, Medicine.
danger of processed foods. 1: 27
and white sugar. 1: 27
a dilemma in breast feeding. 2: 40
medical services in rural Vietnam. 2: 61-62
and nutrition. 3: 91-94
of children affected by fenitrothion spraying. 4: 115-120
not improved by proliferation of medical services. 4: 112-114
care from Witch doctors. 4: 136-137
hazards of hormone implants in meat. 5: 155-156
affected by uranium dust. 6: 192-196
of workers at La Hague. 6: 206-207
damaged by industrial chemicals (Gleanings). 6: 209-210
Hormones — implants used in livestock. 5: 155
carcinogenic effects of residues. 5: 155
sold to Africans for wide variety of treatment (Gleanings). 6: 209
Horticulture — ventilation innovation in tunnel greenhouses. 1: 24-25

India — a plan for its future. 1: 10-12
unemployment. 1: 10-12
possibility of Roosevelt type CCC examined. 1: 10-12
rural economy. 1: 10-12
locust tree experiment. 2: 55-56
Industrial Society — cannot be run on alternative energy. 2: 45
its future with microprocessors. 6: 184-187
Industry — see Trade
Inorganic fertilizers
damaging to fertility. 3: 77-78
law of diminishing returns. 3: 77-78
destroying fertility in New Zealand. 5: 169-170

Japan — new airport at Narita (Ecopolitics). 4: 131
Minamata disease cover-up. 5: 172-173
supplies Third World with manufactured products. 6: 184-187

Kibbutz — as experiment in community living. 1: 14-16

Leadership — and discipline. 1: 13-16
as a 'soft option'. 1: 13-16

Malawi — a conservationist society. 2: 64-65
Malnutrition — most common in Third World cities. 5: 167
in forest Indians. 6: 208
Manpower — considered as capital. 1: 20-21
Medicine — over bureaucratised. 1: 3
study of local remedies in Vietnam. 2: 61-62
successful BCG treatment in Vietnam. 2: 61-62

Stewart. Dr. Alice — work on radiation hazards. 5: 161-165
Subsistence Farming — in peasant societies. 3: 75-76
Sugar — British Sugar Bureau's misleading information. 1: 39-40
and dental caries. 1: 40

Taxes — concessions proposed for small industries. 1: 7-9
favour big business vs smallholder in USA. 6: 197-199
Technology — see also Microprocessors
all pervasive in food industry. 3: 91-94
cannot eliminate uncertainty. 4: 125-127
increases unpredictability. 4: 125-127
catastrophes. 4: 112
Tobacco — cured in revolutionary ventilation system. 1: 24-25
Trade and Industry — small industries vs small trades. 1: 7-9
CBI and small industries. 1: 7-9
Clerkenwell workshops. 1: 9
Trade Unions — against nuclear power in Ireland (Ecopolitics). 3: 95
in Germany (Ecopolitics). 3: 95
Australian Railway Union against uranium mining (Ecopolitics). 3: 96-97
Amalgamated Metal Workers of Australia against nuclear industry (Ecopolitics). 3: 96-97
Oil Chemical and Atom Workers' Union support for radiation research (Ecopolitics). 5: 164
Transport — dominated by the road lobby. 4: 128-130
Rail and waterways inadequately represented in Transport Department. 4: 128-130
Transport Finance Bill proposed. 4: 128-130
Trees — see also Forestry
carob bean. 2: 55-56
importance to the community. 4: 121-124

Uncertainty — the age of. 4: 125-127
increased by technology. 4: 125-127
Unemployment — in the North of England. 1: 7
in India. 1: 11-12
as waste of people. 1: 21
as cause of juvenile delinquency. 1: 21
in inner cities. 3: 84-85
result of microprocessors (Editorial). 6: 182-183, 184-187
Uranium — cost in the USA (Gleanings). 1: 32
mining opposed by Railway Union in Australia. 3: 96
in the nuclear industry. 6: 192-196
Urban Societies — decay caused by industry and middle classes moving out. 3: 84-90
Covent Garden destroyed. 3: 88-90
Clerkenwell revitalised. 3: 88-90
immigrant communities keep their identity. 3: 86-87
importance of trees in. 4: 121-124
USA — future of America, report on Atlanta Conference. 1: 3
pollution of lake Superior. 2: 47-50
New York a City beyond control. 3: 86
health care crisis. 4: 112-114
National Cancer Institute. 6: 188-191
problems of nuclear industry in. 6: 192
need for agricultural reform. 6: 197-199
fight against nuclear power. 6: 200-202
chemical waste hazards at Niagara (Gleanings). 6: 209
USSR — poor record in environmental policy. 3: 98-99
pollution from open pit mining. 3: 98-99
re-routing of rivers. 3: 98-99
totalitarian state no better than capitalist as conservationists. 3: 98-99
Utopia — utopian societies examined. 1: 13-16

Ventilation — as a key to a successful new greenhouse. 1: 24
Vietnam — medical services in the countryside. 2: 61
village health centres. 2: 61
success in treatment of TB. 2: 61
lessons for other Third World countries. 2: 61

Waste — see also Nuclear Waste, Sewage
value of good management. 1: 20-21
of time and talent. 1: 20
Water — North West Water Authorities and the Haweswater Dam. 1: 5
from icebergs (Gleanings). 2: 66
purified in Swedish experiment. 1: 22-23
Wave Power — research and development funds from Department of Energy. 2: 42-43
contribution to energy requirements assessed. 2: 43-44
Welfare Services — undermine independence. 3: 74
Wildlife — crocodiles slaughtered for research. 1: 25
seals and SPAG. 1: 26
population control in Canadian timber wolf. 1: 26
beaver, the case against reintroduction in the UK. 1: 26
slaughtering gorillas. 2: 64-65
destroyed by fenitrothion spraying in Canada. 4: 115
Windscale Inquiry — see also special report *Reprocessing the Truth* included in issue No. 2 (Mar/April) advertised on back page of Index.
and the economics of nuclear energy. 1: 17
and the Secretary of State for the Environment. 2: 38
eighty MPs vote to delay THORP. 4: 134
radiation hazards misrepresented. 5: 161-165
Witch Doctors — officially backed by WHO. 4: 136

BOOKS REVIEWED

(OBR = Short reviews in Other Books Received)

Allaby, Michael: Dictionary of the Environment (*OBR*). 1: 34
World Food Resources Actual and Potential (*D.M. Anderson*). 3: 105
Ashby, Eric: Reconciling Man with the Environment (*Nicholas Gould*). 6: 214
Armstrong, Patrick H: Discovering Ecology (*OBR*). 3: 107

Barlow, Kenneth: The Law and the Loaf (*David Greenstock*). 5: 174
Barnet, R.J. and Muler, R.E.: Global Reach (*Claire Mulkeen*). 3: 104
Brockington, David and White, Roger: In and Out of School. The ROSLA project. (*OBR*). 4: 142
Brown, Lester: Worldwide Loss of Cropland (*OBR*). 6: 218

the politics of in the US. 4: 112-114
health care as an industry. 4: 112-114
hegemony in. 4: 112-114
WHO backs Witch doctors in Africa. 4: 136
traditional healing in Nigeria and Zambia. 4: 136-137
useless in cancer treatment. 6: 188-191
banned drugs sold in Africa (Gleanings). 6: 209
Mediterranean Sea — Monaco conference on future of. 2: 41
conflict of rich and poor nations with coastline on. 2: 41
Mellanby, Professor K. — criticised by E. Goldsmith. 3: 77-81
defends DDT and Paraquat. 3: 77-81
environmental record. 3: 77-81
replies to E. Goldsmith. 5: 147-154
on ecological dogmas. 5: 147-154
Microprocessors — are they necessary? (Editorial). 6: 183-184
the height of lunacy (Editorial). 6: 183-184
and unemployment. 6: 184-187
development and efficiency. 6: 184-187
Government attitude to. 6: 184-187
Minerals — in nuclear waste. 6: 192
lead levels in dust (Gleanings). 6: 209

National Enterprise Board — invests in small industries. 1: 7
New Zealand — Values Party (Ecopolitics). 1: 31. 5: 169-171
a paradise destroyed. 5: 169-171
misuse of agricultural land. 5: 169-171
high consumption of resources. 5: 169-171
Nuclear Power — see also special report *Reprocessing the Truth* included in issue No. 2 (Mar/April)
advertised on back page of index.
estimated proportion of energy needs fulfilled by year 2000. 1: 4
hidden costs. 1: 17-19
escalation of costs. 1: 18-19
decision deferred in New Zealand (Ecopolitics). 1: 31
AGRs and Wedgewood Benn (Round-up). 2: 39
Scottish Campaign to Resist the Nuclear Menace (SCRAM) (Ecopolitics). 2: 59
under attack in Canada (Ecopolitics). 2: 59-60
limitations of risk analysis. 2: 63
Rasmussen report. 2: 63
opposed by Irish Trade Unions (Ecopolitics). 3: 95
opposed by amalgamated metal workers of Australia (Ecopolitics). 3: 96
FoE opposed to. 4: 135
not a source of 'cheap energy' (Gleanings). 4: 138
and radiation hazards. 5: 161-165
opposition to in France (Ecopolitics). 5: 171
opposition to in USA (Ecopolitics). 6: 200-202
and the energy crisis (Book Review). 6: 212
ineffectiveness of EPA (Ecopolitics). 6: 200-202
opposition to in Scotland (Ecopolitics). 6: 202
and the law in Switzerland (Ecopolitics). 6: 203
rejected in Austria (Ecopolitics). 6: 204
reprocessing plant at La Hague (Ecopolitics). 6: 205-207

Reprocessing the Truth

The Ecologist analysis of the WINDSCALE REPORT

by

Edward Goldsmith, Peter Bunyard and Nicholas Hildyard

"Since reason and truth no longer prevail at Public Inquiries we must not delude ourselves that the FBR Inquiry will go the way of the objectors. At stake is the very survival of the nuclear industry and with it its bodyguard of powerful friends."

"We call on all those who object to the FBR to boycott the coming Inquiry and instead commit themselves to a programme of **non-violent, civil disobedience**. We believe that no option is left to us if the scourge of nuclear power is to be stopped, as it must be, if we are to preserve our country and our planet."
